From the first ideas to the final plate, our team is here to make the planning process feel exciting rather than overwhelming. We'll take care of the details, allowing you to relax, enjoy the experience and spend your day exactly where you should be – with the people you love.

Whether you already know exactly what you want or you're looking for a little inspiration, we'll work with you to create a menu that reflects you as a couple. Share your ideas, your favourite flavours and even the things you've never seen done before – we love a challenge.

Behind every menu is an experienced team of chefs and event professionals who understand exactly what it takes to deliver exceptional food and seamless service on one of the most important days of your life.

Beautiful food, thoughtful service and a team you can trust – all brought together to create a wedding your guests will be talking about long after the final plate has been cleared.

Wow!! Pickled Pumpkin catered my wedding and honestly it was absolutely incredible. Josh and the gang made the whole thing super simple and stress free to organise and design the perfect menu. And on the day it was so so smooth! Sue who was on charge on the day gave me and my wife special little treats throughout the day too which was super nice.

And every single guest commented on how incredible the food was! Also on how full they all were which is always a bonus. Every member of the team on the day was amazing! They also looked after the band, photographers and magician so well too. The whole thing was just perfect. I couldn't recommend them highly enough. The pork belly.... oh my word!!!!!! Sensational. Genuinely made it feel like a family affair. Amazing little personal touches and nothing felt overly formal. All so relaxed and Sue was so on the ball, the timings were amazing and it left us feeling like we were in the safest of hands. Perfection is the only way to describe it. Thank you so so much for making our day so special!
